An error was found in a formula.

In “Materials and Methods”, p. 5, the former formula:

$$C_s = \frac{2 \cdot (C_n + C_f)}{2 \cdot k + n \cdot (n - 1)}$$

Shall read now:

$$C_s = \frac{2 \cdot k \cdot (C_f + 1)}{2 \cdot k + n \cdot (n - 1)}$$
