

Corrigendum

Influence of hydrometeorological factors on the ecological state of the hypersaline lake Saki (Crimea) in 2017–2018

Irina I. Rudneva, Viktor V. Chaban, Miroslava A. Golub, Valentin G. Shaida, Anton V. Shcerba

Ecosystem Transformation 2020, **3** (3), 34–43

An error was found in the citing SU SPE Crimean GGRES reports.

In “Materials and Methods”, p. 36, the former text:

All hydrobiological studies and processing of the results of monitoring observations were carried out at the Laboratory of Biological Research, Crimean Hydrogeological Regime and Operation Station, Saki.

Shall read now:

All hydrobiological studies and processing of the results of monitoring observations were carried out at the Laboratory of Biological Research, Crimean Hydrogeological Regime and Operation Station, Saki (Khokhlov et al., 2018, 2019).

In “References” the reports were cited with incomplete authors list. The correct references are given below:

Khokhlov, V.A., Vasenko, V.I., Chaban, V.V., Guskova, N.V., Volovod, P.A. et al., 2018. Geologicheskoe izuchenie, regim, ekspluatatsiya i gorno-sanitarnaya ohrana mestorojdenii hidromineralnyh resursov Respubliki Krym v zone deistviya GU NPP RK “Krymskaya GGRES”.
